

Developed with hoteliers' specific needs in mind, ArtioGuest Essentials is an easy-to-use solution which offers a welcoming in-room guest experience. It is a cost-effective solution that provides all the fundamental tools necessary to create a convivial and pleasant guest experience.

Overview

- Easy to use - sample portals provide a starting point you can customise
- Simple drag-and-drop portal creation
- Import elements from existing portals for re-use
- Easily apply your organisation's branding and look and feel - no additional coding required
- Improved navigation - add Home and Back buttons for ease of use
- Source TV channels using existing RF infrastructure on Sony SmartTVs, whilst receiving middleware via Ethernet/ Wi-Fi
- Customised design service available for portal creation

Guest Functionality

Channels

- Display a list of channels in a grid layout allowing guests to select and play TV and radio
- Import and use easily recognisable channel icons
- Collate similar channels into groups

Guide

- Display an Electronic Program Guide with optional preview of the selected programme
- Up to 14 days programme schedule information
- Configurable Catchup channels with 7 day availability - enables guests to easily view programmes from previous days or watch a live programme which has already started from the beginning

Clock

- Display the current time and/or date

Weather

- Up to five day forecast
- Display weather in multiple locations
- Celsius/Fahrenheit temperature display

View

- Use the View app to create structured multi-page portals

TV Source

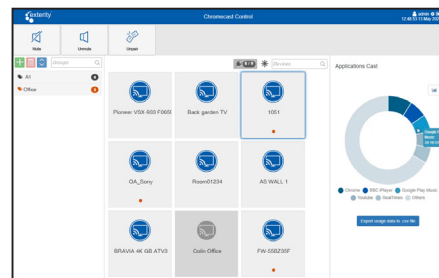

- Allow guests a choice of TV input, enabling them to use their own devices, such as games consoles, etc
- AirTime integration is available as an option for those wishing to offer Video on Demand
- Supports Google Chromecast and screen share
- Supports built-in Chromecast on supported TVs

ArtioGuest Essentials Users

- Pre-configured Admin, Integrator, and Hotel users help get you up and running quickly
- Customise these users if required or add additional users

Chromecast Control

- Let guests share images, videos and subscription content from their device directly on the in-room TV
- Centrally manage Chromecast usage and view usage statistics and status
